

SLOT CANYONS

GRAND CANYON NATIONAL PARK - NORTH RIM

WINTER (NOVEMBER - MARCH)

Kanab is a four-season destination, however, there are some definite perks to visiting in the winter:

- Less crowded at the national parks
- Mild winters (snow sports available within 1 hour)
- More available/economical lodging
- More tours available
- Marble Canyon Loop (alternative to North Rim Grand Canyon): Loop includes Grand Staircase, Kaibab Forest, Vermilion Cliffs, Grand Canyon (Navajo Bridge), Antelope Canyon, Horseshoe Bend, Toadstools and back to Kanab for dinner and lodging.
- Better odds of winning the Wave lottery

CLIMATE

On average, there are 256 sunny days per year in Kanab.

Average July high/low: 90/56F°

Average annual rainfall: 19 inches

Average January high/low: 47/21F°

Average annual snowfall: 21.5 inches

ELEVATION

4,970^{ft} or 1515^m

Visiting the Grand Canyon from Kanab:

The North Rim is a great alternative to the South Rim of the Grand Canyon. The North Rim is less-crowded and offers cooler summer temperatures with an elevation of nearly 1,000 feet higher than the busy South Rim.

Access to the North Rim of the Grand Canyon begins May 15th and continues through December 1st unless heavy snow fall occurs on Highway 67 prior to Dec 1st. Overnight access stops October 15th and is day-use only until December 1st.

After December 1st, the Marble Canyon Loop from Kanab offers numerous scenic stops including a driving and walking bridge across the beginning of the Grand Canyon.
